

Press Release

SPI Lasers to rebrand under TRUMPF banner

TRUMPF and laser specialist SPI Lasers join forces // Offering customers a diverse range of world class laser products with deep expertise across multiple technologies

Ditzingen / Southampton, June 30, 2020 – High-technology company TRUMPF today announced a close business cooperation between TRUMPF Laser- und Systemtechnik GmbH and SPI Lasers UK Ltd., which are both wholly owned subsidiaries of the TRUMPF Group. TRUMPF Laser- und Systemtechnik GmbH will combine the business operations of SPI Lasers UK Ltd. to bring advantages in industrial applications via both disk and fiber technology and enhance customer service offerings. As of the 1st July SPI Lasers products will begin to be available via the TRUMPF sales channels.

Customers benefit

SPI Lasers UK Ltd. has been a wholly owned subsidiary of the TRUMPF Group since 2008, quickly establishing themselves within the group as experts in the field of fiber laser design and manufacture. With fiber lasers becoming important laser sources for material processing, both companies agree that “joining forces and integrating SPI Lasers into TRUMPF is a sensible move for both companies and, more importantly one that will be extremely beneficial for our customers”. This value-enhancing step ensures that SPI customers will benefit not just from high quality fiber laser products but also first-class standards of customer service. In addition, both companies are expecting synergy effects and an improved cost structure, e.g. in R&D.

The relevant steps are expected to be completed in the third quarter of 2020.

About TRUMPF

The high-technology company TRUMPF offers production solutions in the machine tool and laser sectors. It is driving digital connectivity in manufacturing industry through consulting, platform and software offers. TRUMPF is the world technological and market

Press Release

leader for machine tools used in flexible sheet metal processing, and also for industrial lasers.

In 2018/19 the company – which has about 14,500 employees – achieved sales of 3.8 billion euros.
